

Polycrystalline Solar PV Module

36 Cells, 30W

The main features

+3W Power and tolerance
0~+3W positive power tolerance guarantee

Resistance to the PID
Harsh conditions for 96 hours testing qualified (@ 85 °C / 85%).For special severity Installation environment, can meet higher standards

Stronger surface resistance to mechanical loads
It has passed the certification of 6000Pa snow load and 3600Pa wind load

High reliability and weather resistance
Through dust, salt fog, ammonia corrosion test,can effectively deal with the harsh environment

The hail test
It passed the hail test with a diameter of 45mm and a speed of 30.7m/s

Lower temperature coefficient
Better temperature coefficient makes the power attenuation less at high temperature
